## *The Simple One-Stop Solution for Unique Products for Homes and Businesses*

*By Beverly Smirnis*

**C**ombining knowledge and experience in the building supply and furniture industries, DFW Interiors has established itself not only as a leading authority on bathroom vanities, but also as a reliable source for an expanding scope of home décor needs.

Observing the strong design trend for vanities made from furniture pieces retrofitted to become bathroom vanities, DFW Interiors sought to find a way to deliver the furniture look while simplifying the process. Prior to DFW Interiors, achieving the sought-after furniture style vanity meant shopping antique malls, finding a carpenter to carefully drill the holes through which to connect the plumbing, and finally working with a plumber and countertop supplier to achieve the final outcome. Today, for customers of DFW Interiors, the process is as simple as a visit to DFW Interiors showroom or its website to order vanities that come ready for installation—complete with the sinks and countertops installed and the holes pre-drilled to accommodate standard faucets.

DFW Interiors offers hundreds of styles, ranging from traditional to contemporary, in single- and double-vanity options. Sinks and granite tops reflect the latest in style options. For customers truly desiring one-stop shopping for a complete vanity, DFW Interiors also carries a selection of faucets, decorative mirrors, lighting products and linen cabinets. DFW Interiors' rapidly growing clientele base now includes both residential and multi-family builders and designers nationwide.

Owner Verruschka Scheevel frequently travels the world to hand-select each of the top-quality furniture style vanities she imports to Dallas for distribution throughout the U.S. Artisans continually introduce new style options, and customers can even provide a photo or sketch of furniture items that clients want to emulate and have a high quality replica created for them.

Her world travels continually inspire the enterprising Verruschka as she expands her product offering and client base. Soon after DFW Interiors began importing chairs and tables, several large restaurant chains took notice and are now repeat customers. Outdoor furniture for hospitality industry clients has also caught on for home décor, adding another plus for builder and interior designer clients.

Clients know DFW Interiors as the “go-to source” for any product they may dream of for a bathroom, patio, restaurant, or just about anything they need made to their unique specifications for their home or business. DFW Interiors takes pride in its unparalleled pricing and service extended to all customers. Whether they are ordering a single vanity for a full container, DFW Interiors delivers knowledge, quality and products that suit the style and taste of a discriminating and ever-expanding client base.
